# BAA STATE REP CONTRACT

This contract will outline the general guidelines and expectations for the BAA State Reps starting in 2017. By returning the contract with a concurrence statement electronically, you understand and agree to the contract.

1. Being a BAA state rep, first and foremost, requires a professional and courteous attitude while promoting bowfishing and the BAA. This includes, but is not limited to; anytime on the water, attending tournaments and all promotional events, posting on internet forums and discussions with anyone outside of the BAA Directors concerning BAA business. For example; Avoid posting pictures of or videos bashing a beaver in the head with a bat, a boat full of beer cans, ect.. Failure to abide by this will result in an immediate dismissal as a State Rep.
2. Any and all photographs forwarded to the BAA are assumed to be available for the BAA's use as needed.
3. You are required to host/ help with at minimum 4 (four) bowfishing "events" a year. These "events" may include but are not limited to membership drive at a tournament, bowfishing trips with groups like Boy Scouts of America, clinics or seminars with local dept. of natural resources or retail bowfishing stores (Gander Mtn, Bass Pro, or Cabelas.)
4. As a State rep, if not able to attend the 2 annual meetings, you will be required to send a small update/ idea list to the director(s) before those meetings so your ideas will be heard and we know you are still active.
5. The BAA asks that if you have a lake/river system in your state/region that is suitable for The BAA World Championship that you work to nominate your lake for voting. This may mean combining with other reps in your state/region to ensure that you have enough resources to handle the task.
6. If your state/region is selected to host the World Championship, you are required to assist at the tournament. Example [Assisting tournament director (s) Help register new members for the BAA.]
